SUMMARY

Frontend developer and high school student building AI-powered products. Currently developing WriteReady — an IELTS assessment platform serving Uzbek and English speakers — while preparing to pursue Computer Science at university.

PROJECTS

WriteReady — writeready.uz

AI-powered IELTS writing assessment platform. Combines real exam prompts with AI to deliver sentence-level feedback, vocabulary upgrades, and a band score in both Uzbek and English.

Stack: React, Firebase, AI APIs

Live: writeready.uz GitHub

Adabiyot Dunyosi — nigorasproject.uz

A 4th-grade literature textbook platform built for a teacher's request. Consolidates students' knowledge through tailored texts and matching interactive exercises.

Stack: React, Vite, Tailwind CSS

Live: nigorasproject.uz GitHub

islomdev.uz — Personal Portfolio

Designed and built from scratch with custom terminal animation, dark/light mode, and animated sections.

Stack: React, Vite, Tailwind CSS, Framer Motion

Live: islomdev.uz

HACKATHONS

Lumora IT Hackathon — Oct 2026

Team Leader & Frontend — Gulistan, Uzbekistan

Led a team of 4 and owned the frontend, building the demo in React and Tailwind CSS with AI tools.

Demo: trustspot-sigma.vercel.app

National AI Hackathon — Jul 2026

Team Leader — Gulistan, Uzbekistan

Led a team of 4 that built WriteReady with React, Firebase and AI APIs.

Live: writeready.uz GitHub

EDUCATION

Rustam Bosimov International School (RBIS) — Expected 2027

High School Diploma — Syrdarya Branch, Gulistan, Uzbekistan

Najot Ta'lim — 2024

Frontend Development track — Frontend Standard Certificate
